## Gender Equality?

Francis

Alison

Jesse

1. I think men and women are different, and that is a good thing. Women are beautiful and men are strong and hard-working. I like sports and cars but women like romantic films and clothes. I am married and I have a son and a daughter. My wife is a housewife and I am businessman. At home, my wife and daughter do the housework. My son and I need to rest!
2. I am a student at University. I think men and women have the same rights and can do the same jobs outside the house. In fact, my female classmates get better marks than male students. My mother is a dentist, my father is a receptionist and my sister is a student vet. At home, I share the housework with my family. My mother cooks and goes shopping for food, my father does the dishes and irons, my sister dusts and I do the laundry and walk the dog.
3. I am a photographer. I work for a local newspaper and for a fashion magazine. I love my job because I can meet lots of interesting people. I think men and women are equal and I don't like people who discriminate others because of their gender.
